

ALL SAINTS CHURCH - TWICKENHAM

Client: - The London Diocesan Fund

Nye Saunders designed a new vicarage and implemented the design of a new church hall and a block of flats providing social housing on land adjacent to All Saint's Church. The constricted site and detailed abutments with the church provided numerous challenges which were overcome to create an exciting new facility for the parish and much needed social housing.

Design Team

Architects: Nye Saunders LLP

Contractor: Lacey Simmons Ltd
