

ST JOHN'S CHURCH WONERSH - NARTHEX EXTENSION

Client:- PCC St John's Church, Wonersh

The project involved the extension to this Grade 2* Listed church to provide a new meeting room, disabled and other toilet facilities, kitchen and parish office facility. The design in brick with oak roof trusses mirrors that of the Georgian brick nave to the church. The scheme was developed in response to the needs of the Parish and the desire to make historic churches such as these suitable for 21st century use.
