

## GUILESHILL FARM

Client – The owners of Ockham Park

Contractor – Deeks & Steere

The project involved the substantial rebuilding and refurbishment of redundant farm buildings as residential accommodation. The oak framed barn set within the complex was restored and is now used as a function room shared by the owners of the residential accommodation.

The project required the sensitive consideration of a redevelopment proposal and the retention of as much significant historic fabric as possible and as agreed with the Guildford Borough Council conservation officer.

The project won a Guildford Borough Council Heritage Award.
