

## NELSON PRIMARY SCHOOL - WHITTON

Nye Saunders were asked to provide a master plan for the school to deal with the short comings of the existing accommodation. Our proposals, to be carried out in three phases, enlarge the nursery accommodation, followed by the replacement of the 'horsas' temporary classrooms with a new wing designed to be naturally ventilated. This will allow the main body of the school to be refurbished to give enlarged classrooms. Phase 1 – the enlargement of the nursery accommodation was completed in 2008.
